## Message from the **DIRECTOR**

For 19 years now, SUMAJKT ELECTRICT COMPANY LTD. Aimed to provide the best quality and affordable electricity service on- time and in- budget in and out of the country, we aim to provide a level of service that will exceed the expectations of our clients.

Basically, we have successfully completed many high-profile contracts in both private and public sectors, where our performance and our stringent technical standards have demonstrated our total commitment to every aspect of our operations. I managing Director aim proud to be at the head of a skilled and dedicated team of engineers, managers and support staff.

My aim is to ensure the ongoing success of the company by developing their talents and abilities, and by expanding our activities into ever more -more technically challenging fields.

I relish the prospect of taking the company forward in this increasingly demanding and competitive world by building on our special core values and skills.

Above all, aim determined that SUMAJKT ELECTRIC COMPANY LTD will maintain its reputation for quality and reliability.

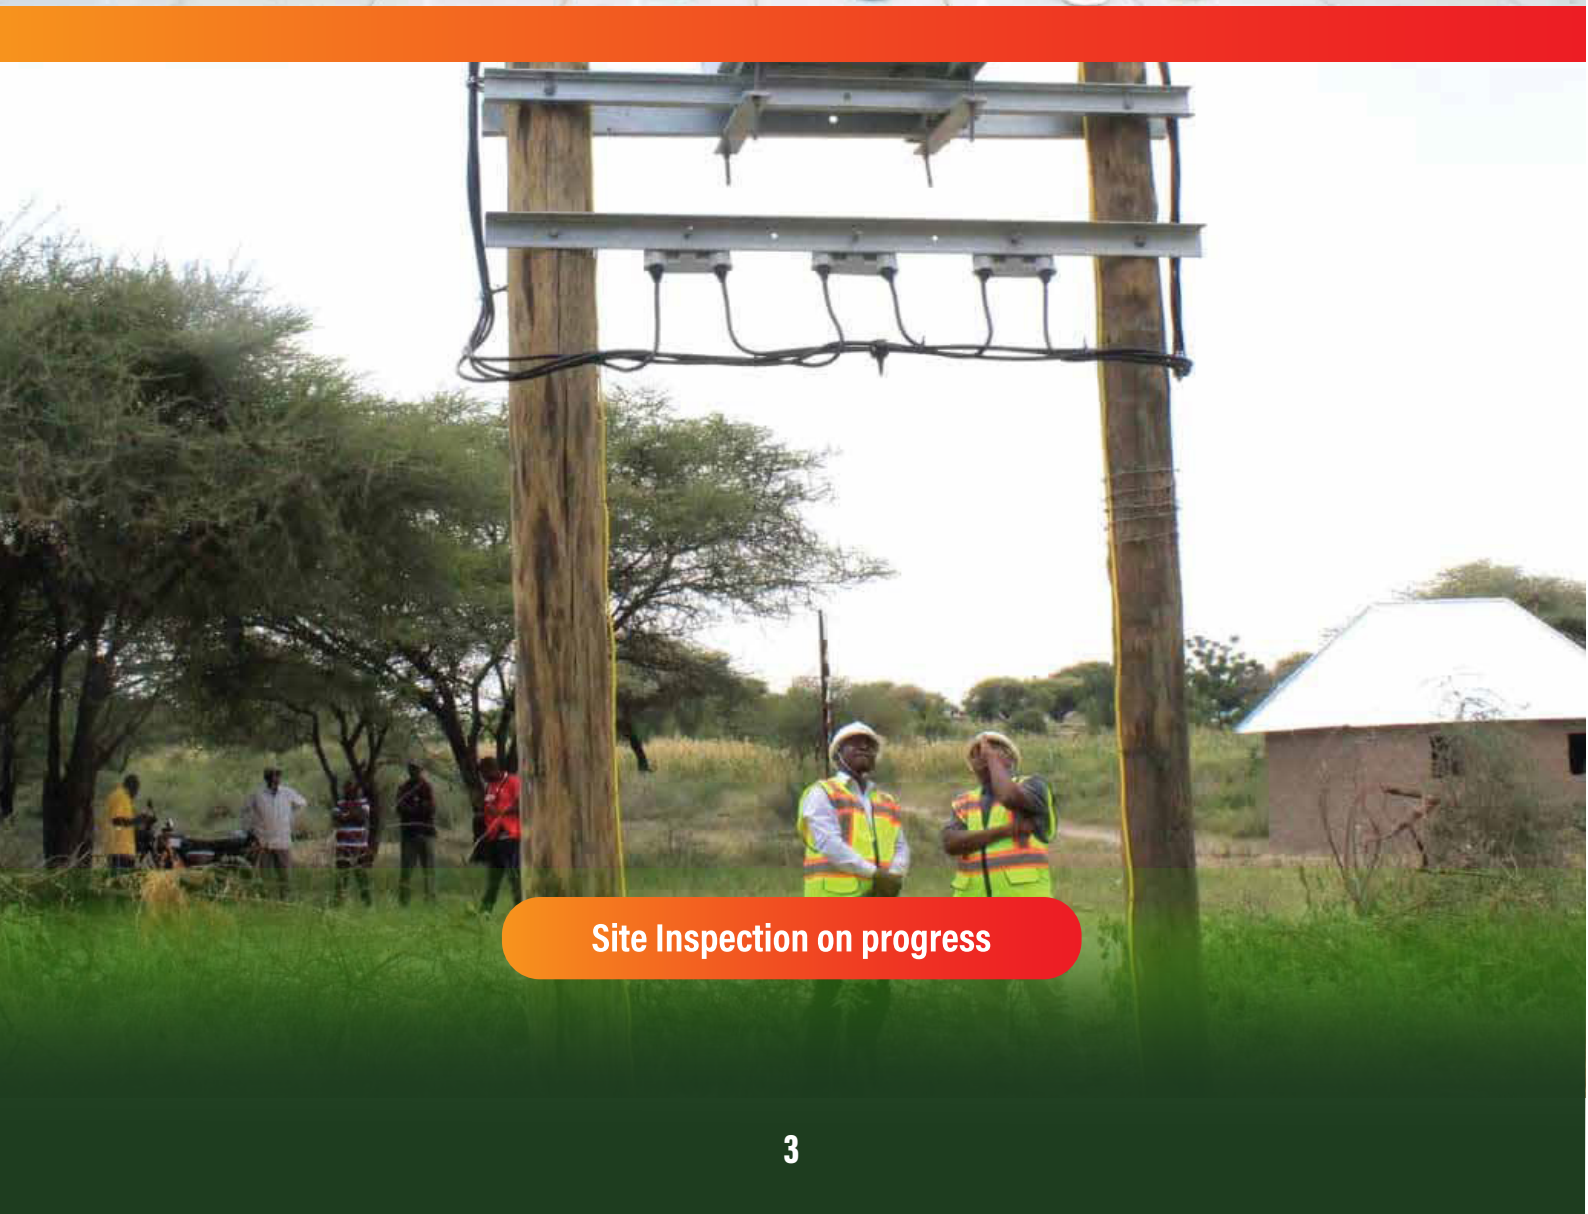

A handwritten signature in blue ink, which appears to read 'James Saimon Mhame'.

## OUR SERVICES

### ELECTRICAL DISTRIBUTION LINE PROJECT

Projects related to extension of national grid on medium Voltage (33kv/11KV) and Low Voltage (0.415Kv) lines, installation of Distribution Transformers and connection of new customers in unelectrified rural and peri-urban areas. These projects are either financed by the Rural Energy Agency (REA), TANESCO, and other Government institution like NSSF, NHC, TANROADS or Private Sectors development projects.

#### • Renewable Energy Installation – Solar System

This is the energy from renewable resources that are naturally replenished this includes movement of water and geothermal heat.

### HEATING VENTILATION AND AIR CONDITIONS

The main purpose of a Heating Ventilation and Air Conditions (HVAC) system are to help maintain good indoor air quality through adequate ventilation with filtration and to provide thermal comfort.

SUMAJKT Electric co. Ltd specialized in advanced, energy – efficient HVAC system that provide reliable, comfort-controlled environments whilst ensuring maximum operating efficiency. We operate throughout Tanzania where climatic conditions vary – designing installing and maintaining the most appropriate HVAC systems for residential, commercial, industrial and government buildings. From the retails stores to restaurants offices to hotels, universities to health-care facilities, our HVAC systems will improve comfort level, reduce total cost of ownership and protect indoor air quality.

### FIRE PREVENTION AND PROTECTION SYSTEM

SUMAJKT Electric we have engineers who specialize in security and fire alarms system. We provide expert design, installation and maintenance services of high -end integrated systems that are ideal for both large and small premises. Through close client consultation we install intelligent, comprehensive and highly cost -effective systems to protect staff, property and business around the clock.

Our range of products and services includes:

1. Fire alarms, detection systems, gas fire suppression systems and emergency communications
2. CCTV Design, installation and maintenance;
3. Access control system design, set-up, installation and maintenance
4. Intruder alarms systems, design, installation, maintenance and consultation and
5. Ongoing maintenance on all our installation areas

## TELECOMMUNICATION ICT & SECURITY SYSTEM

Regardless of how basic or complex your business technology requirements are, SUMAJKT Electric Company Limited is able to install and maintain an information and Communication Technology infrastructure to encompass all aspects of your business needs for now and for the future.

We operate throughout Tanzania, and our clients range from private individuals to national and international organizations in a variety of business sectors. We undertake work across a wide range of contract values.

These include offices, factories, residential buildings, government buildings, education and health.

### ENVIRONMENTAL POLICY

Everyone at SUMAJKT Electric Company Limited cares about the impact that our operations may have on the environment.

It is the Company's policy to ensure not only compliance with all relevant regulations and directives for environmental protection, but to actively promote best practice.

We use carefully considered methods of operation that reflect society's concern for the environment.

Let's  
**SAVE** THE  
**Environment**  
TOGETHER

## HEALTH & SAFETY

### OUR POLICY BASED ON FOUR PRINCIPLES

**Maintaining a  
general awareness  
of all environmental  
matters that are  
relevant to our  
Company**

**Ensuring that  
appropriate  
consideration is  
given to environ-  
mental issues in all**

**Minimizing waste,  
and maximizing  
re-use and recycling**

**Encourage  
Employees to be aware of their  
individual responsibilities and  
to promote good practices in  
the workplace**

Our policy SUMAJKT Electric Company Limited to ensure that safety is the concern of both management and staff alike. Every effort is made to make sure that the working environment for all employees is free from hazards and that all reasonably practical measures are taken to eliminate risk. Company safety procedures are in line with all statutory provisions and staff are expected to follow these procedures as a routine part of their workplace responsibilities.

## COMPANY EXPERIENCE

SUMAJKT Electrical Works Contractor is the oldest company and it has extensive and experience in electrical works especially in high raised building, commercial building, power lines construction as well as substation and specialized in Electrical for Mechanical, Electrical for ICT, Fire detection and Alarm System, Outdoor righting, street light, Fence security system, fabrication of raised floor for data rooms and Solar power installation.

The company has highly capable engineers to carry out their responsibilities regardless of the environment and meet national and international standards in the field of engineering, this is due to the experience, expertise and integrity they have in ensuring the company becomes the largest Electrical Company owned by state institution in the country.
